

DEEPA JAW CRUSHER

Engineered for High production

ONE TON A MINUTE CRUSHER

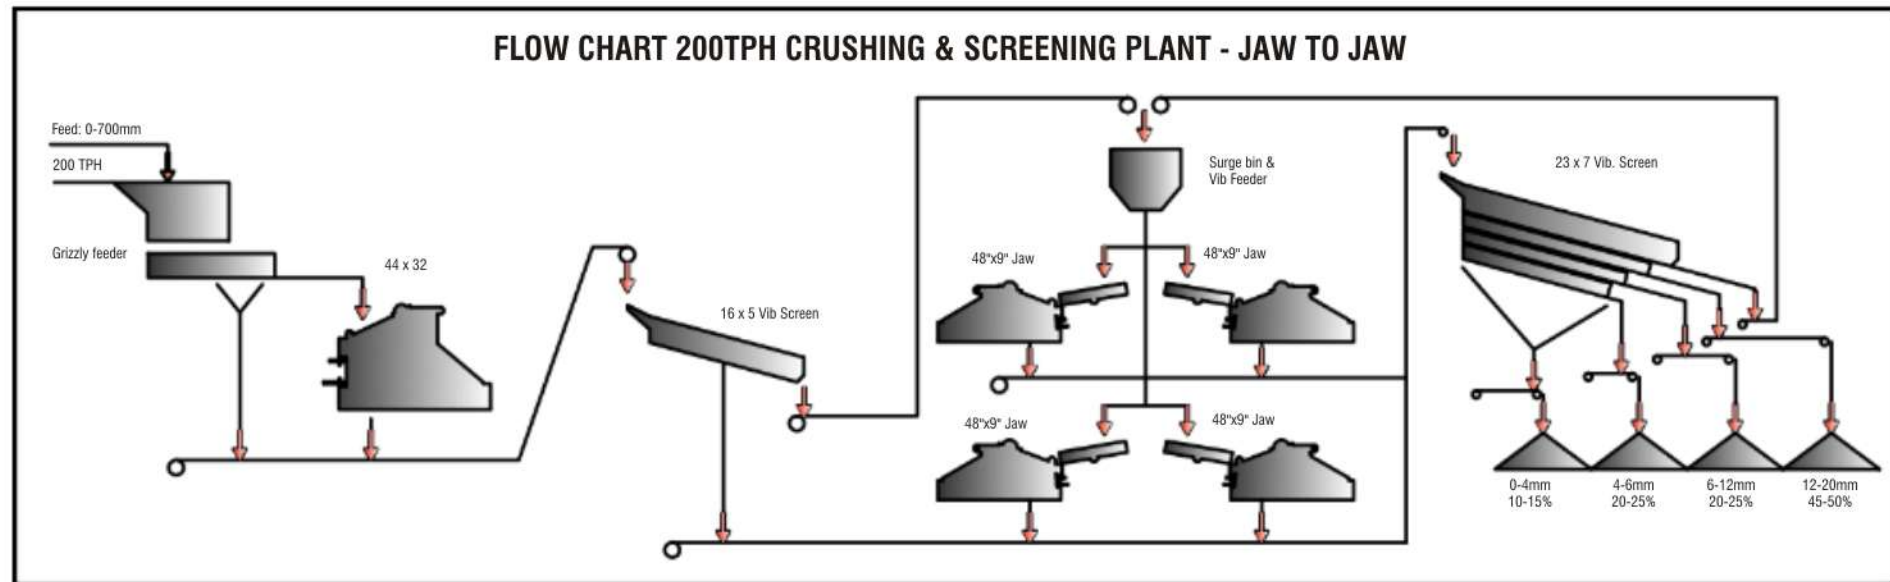

48 X 9

Deepa Jaw Crushers - Invented to Inspire

Deepa jaw crusher of size 48" x 9" (1220 x 225 mm) is the most versatile machine of robust construction with an incredible crushing capacity of 50 tons per hour @ 20 mm setting. When high production is the goal, the ultimate choice will be Deepa Jaw Crusher 48" x 9", Since its operation in tandem will augment production in the order of 50 Tons per machine.

Clustered to Conquer

A cluster of 4 Nos. 48" x 9" Deepa crusher outperforms the deployment of one cone crusher of 200 TPH capacity requiring the same 200 KW power - in output, operating and maintenance cost, flexibility of operation and ease in maintenance - excelling with all advantages inherent in double toggle jaw crusher.
