

DEEPA SAND MAKER

HERALDS NEW ERA
FOR
SAND MANUFACTURING
INDUSTRIES

DEEPA MODERN SAND MAKER

YOUR FORTUNER

- » **DEEPA SAND MAKER** is an innovative design to make sand without washing.
- » Deepa Sand maker is an unique design to take out coarse and fine aggregates with fine dust removed direct from VSI without going through expensive cumbersome process of washing.
- » Deepa Sand Maker is first of its kind to combine VSI and air classifier in one unit to remove fine dust without washing and take out all the products: Msand, Psand, 20mm,12mm and 6mm.
- » Water is very scarce. Colossal and criminal wastage of thousands of liters of water is saved by adopting Deepa sand maker to make cubical shaped coarse aggregates and fine aggregates – all dust free.
- » Air classifier – ID fan, ducting, cyclone, filter bag – all in compact assembly and integrated with Deepa VSI/HSI never before heard or seen but of proven quality.
- » First and best choice for dry process of sand manufacturing.

ADVANTAGES OF DEEPA SAND MAKER

- » MAXIMUM SAND PRODUCTION.
- » NO WATER FOR PROCESSING
- » DUST FREE CONCRETE SAND AND PLASTERING SAND WITHOUT WASHING.
- » MEETS HIGHEST ISI SPECIFICATION.
- » LOW MAINTENANCE AND OPERATING COST.
- » NO NEED FOR CONSTRUCTING RCC SEDIMENTATION TANK AND PERIODIC REMOVAL OF SLUDGE FROM THE TANK.

CAPACITY	POWER		TOTAL
	VSI	DUST EXTRACTOR
